## ● Daisy Data Top-Ups Saves you money when you need it most ●

As part of our ongoing efforts to offer customers great value services, we are delighted to introduce and announce Daisy Data Top-Ups for Daisy Mobile customers. These are a collection of subscription level data bundles, designed to help you save time and money on out of bundle costs, once you have breached your standard inclusive allowances.

Daisy Data Top-Ups is a way for you to manage your mid-month data allowance increases. It is similar to Daisy's traditional data bolt-ons, which can be added at any point during your billable month. However, unlike our traditional bolt-ons Daisy Data Top-Ups offer the full bundle allowance for the full price, until the end of that particular billing and onwards, with no complicated pro-rata billing adjustments.

Daisy Data Top-Ups is available on both Vodafone and O2 networks and across all of our exclusive tariffs including Select&Share and Eureka. There are four bundles in total, consisting of 1GB, 5GB, 10GB and 20GB options, full details below:

Data Allowance	Description	Cost exc VAT
1GB	1GB Data Top-Up	£3.50
5GB	5GB Data Top-Up	£15.00
10GB	10GB Data Top-Up	£20.00
20GB	20GB Data Top-Up	£27.50

Data Top-Ups offer connection level data only – they are not shared.  
Only a single Data Top-Up per connection, per month should be applied, but this can be applied at any point.  
Data Top-Ups are not automatically removed at the end of each billing cycle, please request removal.  
Please note that if not removed prior to next billing cycle then the item will be charged in full and user will receive the full allowance again for the following billing month.
